

## Sleek, compact design

Function and form in harmony

Easy extraction

More hygienic

Certified quality

Low consumption

# MEGAMINI EASY-PULL SYSTEM

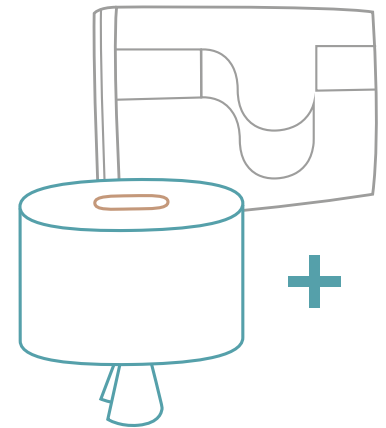

## BIG ON CAPACITY, SMALL ON SPACE

### The compact dispenser with central extraction

The compact **Megamini Easy-Pull** dispenser may look sleek and slimline, but its clever design houses a surprisingly large oval roll that **optimises space**.

The finely-tuned dispensing mechanism and the vertical position of the roll combine to work with gravity for **jam-free effortless extraction**. With just one sheet dispensed at a time, there's **less wastage** and because users only touch their own paper, it's a more hygienic solution.

Easy to load and fitted with a window that allows you to see at a glance how much paper remains, the Megamini Easy-Pull is extremely **low-maintenance**.

## MIDI EASY-PULL DISPENSER + TOILET PAPER SYSTEM

FLUTECH® technology is an innovative solution that eliminates those frustrating plumbing blockages that occur all too frequently in public toilet facilities. Holding 150 metres of extra-compact soft toilet paper in pure pulp that **disperses in just 9 seconds**, the Midi Easy-Pull dispenser significantly reduces repair and maintenance costs.

### MEGAMINI MIDI EASY-PULL DISPENSER

**BLACK** - ABS  
Code 92700  
L285xH210xD150 mm
