

L'ARTE,
DI ARREDARE
LA TAVOLA

Collection

Ispirare concetti di ristorazione progettando apparecchiature che definiscono nuovi stili. Il progetto Infibra Collection si focalizza sulla ricerca compiuta intorno alla tavola, che da semplice elemento d'arredo diventa l'elemento principe in armonia con gli arredi del locale.

Con questo intervento prosegue la ricerca di Infibra negli ambienti del canale Ho.Re.Ca. un percorso fatto di funzioni in cui le tovaglie, i tovaglioli ed i coprimacchia si articolano in soluzione di continuità diventando al tempo stesso elemento di comunicazione, distinzione e tendenza.

Una sorta di microcosmo dove conservare ciò che è importante per ognuno di noi.

ROBERTO TOSCA

Direzione Vendite

Inspire Ho.Re.Ca. terms designing table sets for new styles. The Infibra Collection project is focused on research around the table, which from a simple detail of decor becomes the main element in harmony with the restaurant's furnishings.

This involvement continues Infibra's research in settings of the Ho.Re.Ca. sector. A direction made by functionality in which napkins, tablecloths and covers become an element of communication, distinction, and trend.

A sort of microcosm where to maintain all that matters to us.

ROBERTO TOSCA

Sales Director

A handwritten signature in black ink, appearing to read "R. TOSCA".

UN PORTFOLIO DI BRAND PROFESSIONAL DAI POLIEDRICI VANTAGGI

Industrie Celtex è la sintesi di innovazione, conoscenza ed esperienza in ambito tissue, tessuto non tessuto e sistemi di dispensazione per il mercato professionale. Un processo ad integrazione verticale dalle cartiere alle linee di trasformazione che offre soluzioni specifiche per tutti gli ambienti, quali area bagno, industria, cucine professionali, mense, centri medici e spa. Industrie Celtex propone brand differenziati per rispondere alle esigenze di tutti i segmenti.

CELTEX

Linea di prodotti premium certificati Ecolabel e PEFC realizzati con il 100% di fibre di pura cellulosa. La soluzione perfetta per coniugare efficienza e qualità.

E-TISSUE

La carta ecologica dagli alti standard di performance. La speciale formula della carta E-tissue garantisce al prodotto finito straordinarie capacità di assorbimento, morbidezza e resistenza anche a umido. Una carta riciclata gradevole anche all'olfatto dell'utilizzatore finale. Il colore sabbia della carta deriva dalle tonalità nocciola degli sfondi di lavorazione della carta Kraft (come ad es. dai rifili dei sacchetti per il pane) unite alle fibre dei ritagli di lavorazione della pura cellulosa. Una carta profondamente ecologica, prodotta senza l'utilizzo di additivi chimici, candeggianti, sbiancanti ottici e senza scarti di produzione dannosi per l'uomo e per la natura e per questo certificata Ecolabel e PEFC.

SAVE PLUS

La carta eco-logica. La gamma prodotti che unisce la qualità del riciclato ecologico alla convenienza del costo in uso. I processi produttivi consentono un risparmio energetico maggiore del 25% rispetto al comune riciclato post-consumer, evitando rifiuti e fanghi inquinanti. L'assenza di cloro e di sbiancanti contribuisce a mantenere ridotto l'impatto ambientale del prodotto nel suo intero ciclo di vita. Le certificazioni Ecolabel e PEFC garantiscono la sostenibilità del progetto, l'idoneità alimentare ed i test di tolleranza cutanea (patch test) attestano l'impegno nei confronti della sicurezza alimentare e della compatibilità della carta a contatto con la pelle.

TISSUE FLOWERS

La linea elegante e raffinata per arredare le toilette di hotel, bar e ristoranti.

MEGAMINI

Sistemi di dispensazione Made in Italy per l'area bagno. Pure forme geometriche, stile ed eleganza per tutti gli ambienti.

UBI MAIOR

Accessori di lusso per l'area bagno realizzati con marmo di Carrara, fonte di ispirazione per tutti gli artisti ed in particolare dello scalpello di Michelangelo.

UN PORTFOLIO DI BRAND PROFESSIONAL DAI POLIEDRICI VANTAGGI

Industrie Celtex is the synthesis of innovation, knowledge, and expertise in the tissue, TNT and dispensing system products for the professional market.

A vertical integrated process from paper mill to converting lines offers specific solutions for all areas of use: washroom and workplace, food and catering, medical and healthcare.

Industrie CelTEX proposes distinct sub-brands to accomplish all business demands.

CELTEX

Celtex: the Ecolabel and PEFC certified range of products made of 100% pure cellulose fibers. The perfect solution to link high efficiency and significant quality.

E-TISSUE

The environmentally-friendly paper to ensure high standard performances.

The recycled tissue of these products is extraordinary in terms of absorption and tactile softness.

The light brown color is due to a mix of converting trimmings with Kraft fibers, providing the finished product with strength and wet resistance.

SAVE PLUS

Good quality and performance range of products with a whiteness degree of 75%. The paper mills exclusively use prime quality raw material, such as converting trimmings from pure pulp products.

This paper is ecological due to no bleaching or chlorine chemicals used during the production process. No polluting waste and sludge result from manufacturing.

Save Plus allows to:

- save energy, more than 25% compared to conventional recycled products,
- save the environment as paper is certified Ecolabel and PEFC Recycled,
- save money, through extremely competitive pricing.

TISSUE FLOWERS

The sophisticated and elegant toilet paper with premium quality.

MEGAMINI

The Italian Design dispenser line for washroom area with a touch of style.

Pure geometric shapes to grant functionality and grace to all restrooms.

UBI MAIOR

Strong Carrara marble furnishing accessories designed to make every day action simple with a certain first-class touch. Michelangelo's favorite material is the inspiration of this luxury line that meets exclusive Jordanian customer tastes.

TEMCA

Temca è riconosciuta a livello internazionale per qualità, tecnologia e continua innovazione nei sistemi di dispensazione, tessuto non tessuto e prodotto in tissue. Specializzata nel settore dell'igiene e della pulizia in ambito industriale, automotive, medico-sanitario Temca offre soluzioni specifiche per tutti i target del mercato Away-from-Home a completamento della gamma prodotti di Industrie Celtex.

INFIBRA

Infibra suggerisce soluzioni che valorizzano lo stile, il gusto ed l'immaginazione del ristoratore, anticipando i trend legati alla moda.

Dalle tovaglie più eleganti alle apparecchiature casual, le linee Infibra rispondono alle diverse esigenze della tavola.

Una collezione che dalla ricerca sartoriale dell'Ho.Re.Ca. diviene elemento di design per l'arredo del tuo locale.

La divisione dedicata alla produzione e commercializzazione delle carte alimentari soddisfa ogni esigenza degli addetti del segmento street-food, take away e bakery, che desiderano fidelizzare la clientela, presentando gli alimenti in modo sicuro, funzionale ed attrattivo.

Le carte alimentari Infibra consentono ai clienti di ricordare un'esperienza emozionale del cibo e ai punti di ristoro di comunicare il proprio brand.

CERTIFICAZIONI

EU Ecolabel è la certificazione ecologica che attesta che i prodotti, durante il loro intero ciclo di vita, rispettano rigidi criteri di tutela ambientale comuni a tutti i paesi dell'Unione europea: inquinamento acquatico ridotto, emissioni ridotte di gas ad effetto serra e basso consumo di elettricità.

FSC® è un'organizzazione non governativa internazionale che promuove un utilizzo responsabile delle risorse forestali.
"Richiedi i nostri prodotti certificati FSC®"

La certificazione PEFC™ garantisce che le forme di gestione dei boschi da cui proviene la cellulosa rispondono a determinati requisiti di sostenibilità ambientale e sociale concordati a livello europeo.

La certificazione ISEGA è una dichiarazione di conformità per generi alimentari. Garantisce l'idoneità del prodotto al contatto diretto degli alimenti.

TEMCA

Temca is recognized at an international level for quality, technology, continuous innovation in dispensing systems, nonwovens, and tissue products.

Specialized in cleaning and care solutions, Temdex, Profix, and Racon lines fulfill all end-users' specific needs in terms of efficiency in use, high product value, and time saving.

Finding the right product is essential to meet all different industries, such as pharmaceutical, chemical, food, glass, healthcare, printing, cleaning, and automotive.

INFIBRA

Infibra provides ideas, solutions, and cutting edge fashion trends to enhance style, taste, and restaurateur imagination.

From dressy tablecloths to casual placemats and matching napkins, Infiore and Trend brands support on-trade market to create remarkable settings.

Toscofibra, the patented food wrapping paper line.

The up-and-coming trend in specialist food shops and high street delis is filling a gap in the market place. The ever greater demand for street food complements the wide range of butcher shops, supermarket delicatessens, and food service outlets.

Delivering good quality to your customer is vital. The key is knowing which type of food wrapping paper to preserve freshness, ensure safe handling, and genuinely benefit the end-user.

CERTIFICATION

EU Ecolabel, the ecological quality label that guarantees the respect of severe criteria for the protection of the environment required at a European level: low water and air pollution, low greenhouse gas emission and electricity use.

FSC® is a non-governmental international organization which promotes the responsible use of forestry resources.

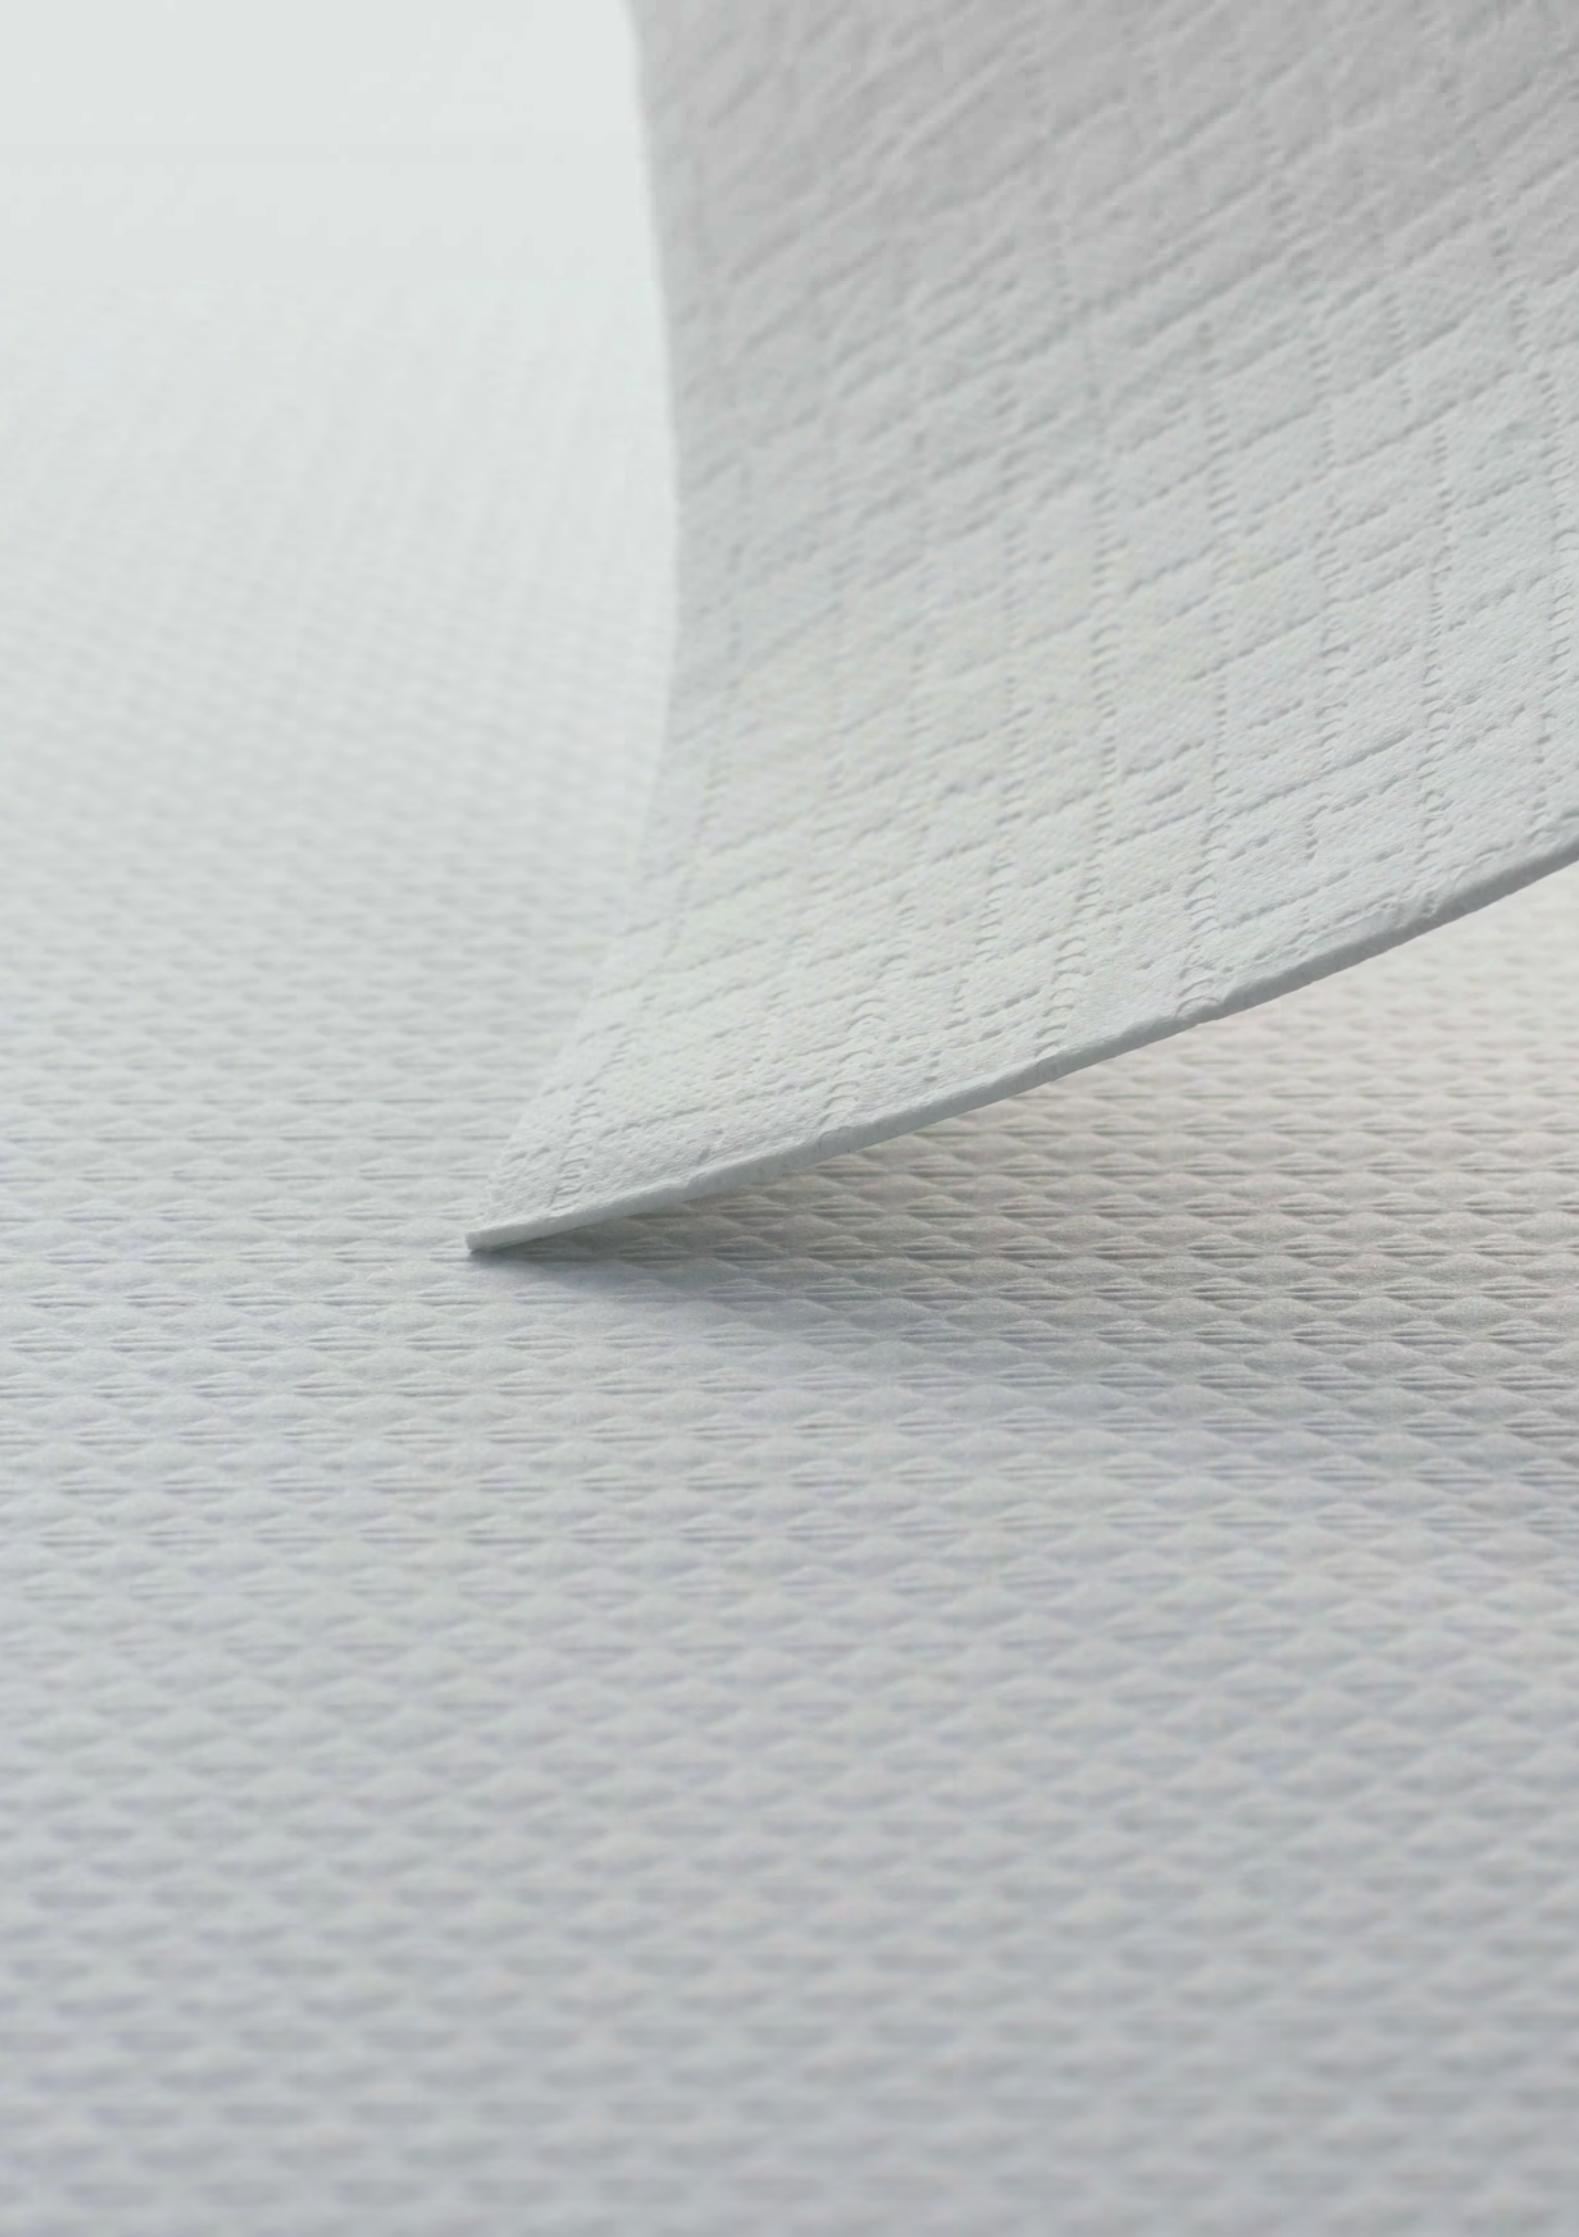

"Ask for our FSC®-certified products"

PEFC™, the forest certification that guarantees the correct environmental management of forest from which cellulose comes.

ISEGA, the declaration of no objection for food industry. It guarantees the harmlessness of the certified product in contact with food and its packaging when used within the earmarked and correct usage.

TREND

I trend ultimamente emersi rappresentano opportunità da cogliere al volo per i gestori dei locali.

Secondo un'indagine commissionata da una nota rivista di settore è emerso che i consumatori prediligono la capacità di coerenza dei locali tra quanto comunicato e quanto proposto, l'artigianalità e la personalizzazione dell'offerta, l'attenzione al benessere e alla sostenibilità, l'interesse per l'alimentazione sana ed equilibrata.

Per questo motivo Infibra ha creato la linea Trend e le sue declinazioni per rispondere a tutte le esigenze del mondo dell'ospitalità.

Una mise en place elegante effetto tessuto per ogni identità del locale, una varietà di apparecchiature per garantire l'igiene del monouso e lo stile del decoro colorato.

La qualità della goffratura brevettata punta a punta si unisce alla preziosità della decorazione per creare coordinati resistenti, impermeabili e di sicuro gradimento.

The most recent emerged trend is an opportunity not to be missed for pub and restaurant owners.

Thanks to a research conducted by a well-known magazine of this sector, it has been proven that consumers prefer: coherence of what is communicated and offered, the craftsmanship and customization of the offer, attention towards wellbeing and sustainability, and an interest in healthy and balanced diet.

That's the reason why Infibra created the Trend Line and its inclination to answer to all the needs of the Hospitality world.

An elegant mise en place textile effect for every restaurant identity, a variety of table sets to grant disposable hygiene and coloured decoration style.

The patented Punta-Punta embossing quality joins a precious decoration to create resistant and waterproof coordinations sure to be liked.

NAPKINS

Ispirata dalla trama e dalla morbidezza della stoffa, Infibra offre un'ampia gamma di tovaglioli in pura cellulosa attestandosi come punto di riferimento sul mercato internazionale per varietà di colori, dimensioni e goffrature.

I formati seguono l'intero arco della giornata: il 17x17 accompagna il cornetto del mattino, il 25x25 per il brunch e l'aperitivo, il 30x30 ed il 33x33 si abbinano al pranzo fuori casa, mentre il 38x38 ed il 40x40 chiudono la giornata con la cena.

La qualità tattile propria del tovagliolo Infibra Touch Colour è data dalla speciale goffratura brevettata "Touch System": la tradizionale trama perimetrale è implementata da una lavorazione, dove la fibra è uniformata mediante un delicato processo meccanico per rendere la superficie omogenea e simile alla stoffa.

Inspired by the weave and softness of the cloth, Infibra offers a wide range of napkins in pure cellulose, a benchmark in the international market for variety of colours, dimensions and embossings.

The sizes follow the whole course of the day: the 17x17 goes with the early morning croissant, the 25x25 for brunch and aperitif, the 30x30 and 33x33 combine for lunch away from home, while the 38x38 and 40x40 close the day with dinner.

The touch quality belonging to Infibra Touch Colour napkins is due to the special patented embossing "Touch System": a traditional perimetral weave is implemented with a production process, where the fiber is uniformed through a delicate mechanic procedure to render the surface homogeneous and similar to a cloth.

INFIBRA

TISSÙ

Grazie all'esclusiva goffratura nata agli albori del gruppo Industrie Celte (ante litteram) e nota in tutto il mondo come Punta-Punta, la linea Infibra Tissù offre al tatto un'eccezionale qualità tessile ed una sensazione incredibilmente soffice. La lavorazione del tissue consente infatti di trattare le fibre in modo da esaltarne la peculiare resistenza, elasticità e morbidezza.

Thanks to the exclusive embossing born at the dawn of the group Industrie Celte (ante litteram), and known around the world as Punta-Punta, the Infibra Tissù range offers a tactile feeling of exceptional textile-like quality and incredible softness. The tissue production process permits a fibre treatment to enhance a peculiar resistance, elasticity, and softness.

INFIBRA

ROYAL

La linea premium che dà pregio al locale recuperando a livello estetico e tattile i tradizionali corredi per tavola. I quattro veli, che compongono il corpo del tovagliolo, conferiscono capacità di assorbimento e resistenza, mentre la speciale trama regala raffinatezza al pasto dei commensali. Una valida alternativa all'airlaid, che si propone il pieno rispetto della sostenibilità ambientale. La carta tissue è infatti un prodotto compostabile e biodegradabile, un pilastro naturale della Green Economy.

The premium line gives quality to the establishment by recuperating the tactile and aesthetic standard of traditional table finishings. The four plies that form the napkin structure give a capacity of absorption and resistance, while the special weave provides sophistication during a diner's meal. As a valid airlaid alternative, tissue paper is a compostable, biodegradable product in full compliance of eco-sustainable standards; a natural pillar of the Green Economy.

TABLE CLOTHS

TABLE CLOTHS

Come alternativa alle tovaglie in tessuto e relativa gestione, costituita da noleggio o acquisto, lavaggio, stiratura e relativi impatti ambientali, Infibra rivela il segreto per avere la tavola perfetta: il monouso di eccellenza, come biglietto da visita per il tuo locale.

Il massimo controllo sulla qualità, una vasta scelta di colori e formati, motivi damascati per un suggestivo gioco di luci ed ombre consentono a fine anno una riduzione di costi di gestione del tovagliato. Inoltre, la possibilità di personalizzazione con loghi, motivi e decori permette una mise en place originale e raffinata.

Le tovagliette e le tovaglie a rotolo due veli presentano la peculiarità della totale impermeabilizzazione grazie alla stesura del polietilene ad alta densità HDPE (dall'inglese high-density polyethylene) sopra il velo della cellulosa, diversamente dalle comuni tovaglie accoppiate con film posto al di sotto dello strato di cellulosa.

L'esclusiva colorazione della tovaglia avviene direttamente sul film HDPE (e non sulla carta) garantendo così la totale sicurezza dell'uso del prodotto a prova di trasmigrazione.

As an alternative to textile tablecloths and their relative handling, comprised of renting or purchasing, washing, ironing, and related environmental impacts, Infibra reveals the secret of a perfect table: a single-use of excellence, like a business card for your establishment.

Maximum quality control, a vast choice of colors and formats, and damasked motifs for an evocative game of lights and shadows permit at year-end a reduction of costs in napkin handling. In addition, the possibility to personalize with logos, motifs, and decors allow a refined and original mise en place.

Thanks to the pairing of high-density PE (HDPE) over a cellulose ply, instead of cellulose on top of HDPE as is common with other cloths, the 2-ply placemats and tablecloth rolls offer a total waterproof effect.

An exclusive coloring of the tablecloth done directly on the HDPE film, and not on paper, guarantees product use in total security and without any transmigration.

Spun bonded tablerunners and table covers represent a refined single-use solution for the most demanding restaurateurs in search for an extremely resistant product.

CREATIVE

La fantasia di colori, decori ed immagini per accompagnare esperienze culinarie, location di stile e attimi di convivialità.

Set intercambiabili, dai porta posate, ai tovaglioli e tovagliette, alternando giochi di tinta piatta a illustrazioni ad effetto.

Un alternanza di apparecchiature dinamiche, di tendenza e di ispirazione.

A collection of colors, patterns, and images to accompany culinary experiences, upscale locations and social gatherings among friends.

Inspirational, trendy, and dynamic interchangeable sets comprised of cutlery bags, napkins, and place mats alternating muted tones with illustrated effects.

CREATIVE LUNCH

Linea coordinati per la tavola.

Dining table set line.

The image is a graphic design featuring a collage of words and phrases related to Italian dining. The words are rendered in a large, bold, black font with a distressed, high-contrast texture. Some words are partially cut off at the edges. The background is a light-colored, vertical-grain wood paneling. The visible text includes:

WRAP PAPIER
NATURE PAPIER
FRIED PAPIER

FOOD SERVICE

La linea Street-Food & Take Away è la risposta alla crescente domanda di prodotti sicuri in cui avvolgere gli alimenti, in particolare i cibi caldi.

Pronta all'uso, riduce gli sprechi grazie all'erogazione foglio a foglio. La carta è protetta nell'igienica scatola dispenser, che eroga un foglio alla volta riducendo inutili sprechi.

La carta Infibra consente al cliente di assaporare in tranquillità il cibo, libero da timori di sporcare gli indumenti.

The Street-Food & Take Away line is the answer to the increasing demand for food-safe products with which to wrap foods, especially hot foods.

The ready-to-use system dispenses each sheet of paper singularly which both reduces unnecessary waste and protects them hygienically.
